“She truly changes your perception.”

In my many years of being an entrepreneur I have been fortunate enough to meet some extraordinary women. Stacey Berger is one such woman. Her youthful demeanor shouldn't fool you as she presents herself with professionalism and class. Her exceptional speaking skills hit home and has a profound effect on everyone who listens. I have witnessed this. She has graced my stage many times and always leaves the audience wanting more. Attending one of her full day workshop's was an eye opener as I saw leaders and executives connecting with her fresh ideas on corporate marketing, operations, investment acquisitions and my personal favorite, her "what if" concept. She truly changes your perception. When Stacey says "yes" to speaking to my groups I know everyone will take away exceptional value. Thank you Stacey Berger for giving willingly to others.

“The team has come together in a deeper more confident way.”

Our Patron Development Team have had 2 sessions with Stacey Berger facilitating, sessions, first on personal visioning and second on a vision for our business that we conduct here at the Winspear. The team has come together in a deeper more confident way than we would have ever imagined. We are a group of devoted individuals who work in a very limited resource industry, always stretching to find better ways to serve the public we are responsible to. After Visioning with Stacey we have a new approach, a Vision driven work place is a happier, fulfilling and more successful environment. The staff have felt the shift from stress to calm expectation of achievement. The tools we have now to ask better questions, to interact with each other in a more cooperative way has taken our results as a department to a whole new level. We know that we are not done yet we are always in process, growing and expanding and it is great to know that we have a coach at the ready to assist us when we slip back into our old patterns of doing and especially being. We are grateful and would be happy to speak to anyone who would be interested in talking to any of us about the specifics of how this has changed a workplace that is definitely a more happy and productive place than it was six months ago.
